## Instructions

### Main Interface Title Change

1. Please follow the directory: (Desktop) Files -> AUBOPallet -> config -> oem.conf

2. Double click into oem.conf, and change the Title to your choice. Then save and exit the file.

3. Then, paste it to the correct location mentioned above and restart the AUBOPalletizer Application. (You do not need to reboot the operating system)

#### Box Logo Change

 Please follow the directory: (Desktop) Files -> AUBOPallet -> resource -> image -> boxlogo

2. Save your company logo as .png file, rename it to boxlogo, and replace the default logo in this folder. It is recommended to save the past logos that you have used somewhere.

The logo used in this example is:

3. Then, paste it to the correct location mentioned above and restart the AUBOPalletizer Application. (You do not need to reboot the operating system)
